

<u>Scene</u>	<u>Movement Concept</u>		
	<u>Space</u>	<u>Effort</u>	<u>Relationships</u>
Grass	Curved pathway	Free Flow	Narrow Body parts
	Medium time	Light Force	Alone in Mass
	Up (head in high level, above tall grass)	Slow - medium	
Mud	Straight pathway	Strong Force	Wide shape
	Forward/Backward (rocking to free feet from mud)	Slow Time	Unison
	Middle (step high)	Bound Flow	Far from others
	Far extensions (for balance)		
River	Curvy Pathway	Strong Force	Through
	Large extension (balance)	Free Flow	Alongside (hold hands, go through)
	High Level (hands, keep shoes dry)	Slow Time	Near others
Forest	Zig Zag pathway	Light force	Far relationships (spread out)

	Right/Left	Bound flow	Twisted shape (around
	High and Low levels (Jump	Slow - medium	branches)
	over rocks/stumps and duck		Over/Under
	branches)		
Snow Storm	Curvy pathway	Free flow	Round narrow shape (bundle
	Forward/backward (wind	Strong force	up from cold)
	blows you)	Slow time	Near others (for warmth)
	Small extensions		
Cave	Straight pathway	Slow	Leading/following
	Low and middle levels	Light force	Near others
	(ducking in cave)	Bound flow	

Return trip – chased by bear

Use the same movement concepts above except everything in fast time.

Other concepts to apply: Inside/Outside (door of house), Relationships (blanket)

---

Figure 1. *Bear Hunt*

<i>Act</i>	<i>Description</i>	<i>Honey Guide</i>	<i>Badger</i>	<i>Lion</i>
1	Honeyguide leading Badger to honey, Badger eating it all and Honeyguide demonstrating anger. Honeyguide then follows badger back to den	Lead Badger, fast, light force, zig zag following Bee, long extensions (wings), circling honey, then circling Badger as he eats all of the honey. Moving faster in zig zag pathways demonstrating anger.	Following loping, slow movements, strong force, ripping open honey, eating fast, slow waddle back to den, content.	Lion sleeping in den, small curled shape.
2	Honeyguide leading the badger, Badger becoming more frustrated and angry culminating with the discovery of the Lion	Lead Badger, fast, light force, free flowing, long extensions (wings), travel through each environment (zig zag through bamboo, strong force stomping on log etc...)	Following Honeyguide, moving slow at beginning, then faster. Show frustration with bound flow.	Startled lion moves fast, large extensions to look big, strong force.

3	Flight from the Lion – Frightened Badger leads, angry Lion follows Badger, happy Honeyguide trails them both.	Follow Badger and Lion, light force, moving fast in curvy pathways, free flowing, large extensions.	Fleeing Lion, straight pathways, strong force, fast time, bound flow. Low level, small extensions into burrow.	Chasing Badger, strong force, free flow, straight pathway. Long extension reaching into low level burrow.
