It's time to show your stuff!

Your job is to come up with an individual mini routine of your skills using the Spin Jammer Frisbees. Your routine will be judged separately by at least 3 of your classmates.

Your routine must consists of the following:

- 1 locomotor move
- a sequence of moves
- change of levels
- change of speeds
- smooth transition of moves
- flashy ending

Practice, Practice & Practice your routine! When your ready, politely find any person in your class to demonstrate your routine to. The person must be sitting and watching your routine before giving you a grade and feedback. Don't peek!!! Have that partner fold the paper covering the grade they gave you. And find 2 other people to share your routine with!

HAVE FUN and GOOD LUCK!
