Description of Idea

This dance, Fanga, originated in Kenya, Africa according to a former student, Joy Kagendo Wells, who shared it with me. However, it is now danced in most all of the African countries and all around the world for that matter. This is an inclusion dance to welcome people and is performed on happy occasions and celebrations.

It is performed as a chant accompanied by drums with everyone repeating the words of the cantor/leader with the appropriate movements.

The word “Fanga” means we welcome you with open arms and hearts, “Alafia” means we welcome you with love, and “Ashei” means that’s right, we all agree. Joy would emphasize that the whole village shared these feelings and wanted this to be expressed to all of their guests. The words and phrases are repeated twice for emphasis and strengthening of the message from the “village members.” The dance involves the entire body, a very complete workout to say the least.

Formation: Men, women, and children dance in a spread out formation, in which the ladies and children usually line up in front of the formation and the men line up on the sides and at the back with the drums and other percussion instruments.

Words and movements:

4. Cantor: We welcome you from the East and West, Everyone: We welcome you from the East and West (Repeat)

Movements: Right arm extends to right side and left arm extends to left side with the chant

Cantor: Ashei, Ashei, Everyone: Ashei, Ashei, (Repeat)

Movements: Two claps for each syllable of Ashei and for each Ashei

5. Repeat number one or entire song for as long as you want. Can add other movements as well to signify other messages to the “guests.” The ideas are limitless and should be encouraged as an extension of the dance and “brain.” Don’t hesitate to move the entire group forward, backward and sideways to expand on expressions related to the “celebration.”

Assessment Ideas:

Checklist of learnings, i.e., words and their meanings, create a dance using similar movements and make up their own words and dances, repeat all parts from memory, use different cantors/leaders in the class, set up groups to create their own similar dances.
