Description of Idea

These fitness homeworks are meant for the students to take home and complete. These assignments are designed to ensure the students are exercising outside of school. We give this homework out at the beginning of the week and it is due on Friday. We see our students every other day.

This is a homework assignment that gives students a focus on random health related topic with questions about that reading. Along with the reading the students must complete a 30 minute workout. If they get a family member to complete the workout with them they get extra credit. This is done to attempt to get the community involved in fitness as well.

These homework ideas are graded out of 10 points and are designed to help the students who are in need of extra help outside of school.
