

Name/Title: Identifying Major Muscle Groups: Lower Body

Purpose of Event: To determine if the student can identify and label the location of the lower body muscle groups.

Suggested Grade Level: 3-5

Materials Needed: Writing utensils, [Lower Muscle Group Assessment Sheet](#)

Description of Idea

This assessment is great to do after you have taught your kids the major muscle groups of the lower body. If you do not have time in class for the kids to complete, ask their classroom teacher to administer it and get you the completed worksheets.

The student will write the number (1-5) identifying the name of the muscle next to the line that points to that muscle.
