## Description of Idea

Smart goals are being used a number of school districts now so we thought we would show an example of one to help other teachers who are now having to write these goals. The one showcased below is for elementary.

Smart goals are use by school districts, administrators and teachers to help evaluate a physical education teacher by asking them to set goals. Ultimately the goal is reviewed and revisited throughout the year and teachers have to show measurable progress. These are typically written at the at the beginning of the year.
