

Name/Title: Ice Hockey Knowledge Assessment (for Plickers)

Purpose of Event: To assess the students knowledge of ice hockey facts, general skills and safety in the game.

Suggested Grade Level: 3-5

Materials Needed:

[Assessment Question Cards](#)

[Plickers app](#) and cards if you use this with Plickers.

Description of Idea

These [Ice Hockey Assessment Cards](#) can be answered as a quick exit ticket or can be used as questions for Plicker's Assessment App.

Post the questions and have students answer, along with their name, on a sticky note or piece of paper as an exit ticket assessment as they leave your activity area.

Plickers is an app that you can use with your phone or iPad to quickly learn more about what students are learning in PE. The instructor reads the Plicker questions. Students decide the correct response and turn the plicker card to make the corresponding letter on the plicker card face up. The teacher then scans the cards, with the device, held up by students. The plickers app quickly tells the teacher what students answered the questions correctly.

See this [Best Practice on PE Central](#) for more information (and a video) about how to use Plickers.
