Name/Title: A Disney Field Day (with video)

Purpose of Event: To celebrate the end of the year while reviewing the skills we learned throughout the year.

Suggested Grade Level: K-2

Materials Needed:

8 stations described
Equipment is listed in the description of stations handout.
Music player with Disney music.
Water and First-Aid Kit.

Description of Idea

Grades will have classes split up to compete at each station. If a grade has a small number, then they will compete as one group. There will be two volunteers at each station, along with the classroom teacher. There will be two volunteers at the water table to help out. Students will be at the station for 12 minutes. If they finish early, they will go back through the station. When students hear the Disney theme sound, they will rotate to the next station. The volunteers at the station will guide the class where to go next for the rotation. Classes will have a rotation map.

The field day is comprised of 8 stations. Each station relates to that certain Disney movie. Feel free to change and adapt to meet your needs. You could make hundreds of different stations based on the amount of movies made.

Video Recap of the Day

Teaching Suggestions:

Share your outline of stations with your volunteers and the classroom teachers weeks in advance so they know exactly what you are planning for the day.
