**Course Purpose/Description:** This course was developed to empower the physical education specialist with the tools needed to effectively implement and facilitate activities that will engage all students physically and emotionally. In these economic times more and more students are not playing mainstream sports, therefore, the physical education teacher's role is more important than ever. We must find ways to keep activity high and enjoyment of activity higher. Class sizes continue to increase, and resources continue to decrease, therefore, the physical education specialist must find new ways to introduce safe ways to play and learn in a large group setting. This course hopes to help with this dilemma.
