

Survivor Challenge

Mission:

Your mission as a tribe is to complete most or all of the skills found on the skills sheet in the time we have remaining. Once you are ready to check off a skill, or have successfully completed a skill let the Tribal Counsel (your teacher) know and he/she will check you off.

Skills 1 - 13 are worth 1 point

Skills 14 - 30 are worth 2 points

Skills 31 - 50 are worth 3 points

Helpful hints:

- If you do not know how to do a skill or what the skill is, chances are someone in your tribe will. Use each other as resources.
- It may go faster if you work together as a tribe and complete the tasks together.
- The tougher skills have a higher point value
