Description: PE Central authors Davis and Dillon have updated and expanded the popular 2008 Disability Fact Sheets for Physical Educators book. This newly updated text contains 35 fact sheets that are written and designed to help teachers, parents, physical activity specialists and therapists better understand specific disabilities. It provides information on the cause of disability, contraindicated activities, and online resources. In addition, general tips on planning, teaching, and implementing physical education programs are presented. Newly added appendices provide invaluable resource samples including referral forms, data collection forms, assessment results, sample parent letter, sample case studies for elementary, middle school and high school students with assessment information and sample Individual Education Programs (IEP). Any teacher, parent, physical activity specialist or therapist will find this resource a valuable addition to their library.
